

Agresearch 2026 Poland Trials

- Corn

- Sunflower

New project Poland

AgResearch plans to establish AgResearch Poland and start to build a serious trial network in the next years like we did 10 years ago in Romania and Bulgaria.

In 2026 our plan is to start with **2 corn** locations and **one sunflower** location (this for the very early maturity)

Corn testing locations 2026 PL

- Poland:**
- 
 - Leszno
 - Grodków

NEW
NEW

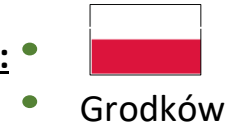

CORN: There is offered 2 grain locations in South-West Poland. According to the demand incoming until 31st of January a decision will be taken whether this location will be available.

Please inform us until 31st of January about your preliminary interest on this location(s) with approximately number of plots

Sunflower testing locations 2026 PL

Poland:

Grodków

NEW

SUNFLOWER: There is offered 1 location in South-West Poland. According to the demand incoming until 31st of January a decision will be taken whether this location will be available.

Please inform us until 31st of January about your preliminary interest on this location(s) with approximately number of plots

• Yield trial

- form 2 rows up to 8 rows plots
- Net plot length from 6,2 m, 9,2m, 19,2 m (mini strip)
- Agronomic trials like:
 - Plant density
- Plot planting and / or harvesting service
- **We are open to discuss your special demands**
